

SELECTMEN'S MEETING

July 20, 1976

Present were Oliver Andrews, Thomas Mansfield and Betty Hooper.

Mr. George Swanburg came in, by request of the Selectmen, to explain some of the assets he listed on his Elderly Exemption application. The Selectmen were satisfied with the details and they felt he would be eligible. Mr. Swanburg thanked the Selectmen for the opportunity to defend his statements.

Mr. John LaPlant came in relative to his building permit pertaining to Burnham Fuel Co. which he now owns and wishes to make his own changes. At first it was expected he would have to appeal to the Board of Adjustment. But on reviewing his case, since he wishes only to change some existing oil storage tanks, his operation comes under the "Grandfather Clause" and it is expected his building permit will be approved.

The following articles were loaned by Roland Sallada for display at the Town Offices: two framed pictures depicting devastation from the New Boston fire; one J. R. Whipple milk can; one Clarence Dodge crate.
